### **Affordable e-Learning Applications**

IntraLearn Software Corporation is the leading provider of shrink-wrapped e-Learning applications. More than 650 corporations, 300 academic institutions and associations worldwide use IntraLearn to provide e-Learning to millions of learners worldwide. IntraLearn combines the functionality of expensive Learning Management Systems (LMS) into a

single enterprise-class, field-configurable software application that makes it easy and affordable to create, deliver and measure interactive learning over the Internet and intranets.

### **Scalable e-Learning engines:**

- ◊ IntraLearn Portal provides a hosted solution for small to mid sized organizations, which gives those organization entry into providing in house and extended reach distance learning services at a minimal cost and commitment.
- ◊ IntraLearn SME is an affordable e-Learning platform that enables small to mid-sized businesses, colleges, universities and K-12 school systems to quickly create, manage and deliver interactive and measurable learning over the Internet and intranets.
- ◊ IntraLearn XE gives mid-sized corporations the ability to offer individual e-Learning platforms to their extended enterprise of suppliers, dealers, distributors, consumers, and various internal departments.
- ◊ IntraLearn LSP built on Icosa technology has revolutionized the way Learning Service Providers (LSPs) deliver e-Learning. Icosa technology enables IntraLearn to create unlimited branded ports, manage, and sell courses and services to each customer from a single product.

### **Curriculum**

Courses can be created directly within IntraLearn, ported from previously hosted solutions or acquired through our extensive course catalog (CertiLearn). IntraLearn will accept industry standards based course content from almost any source. CertiLearn has partnered with leading course providers to offer a comprehensive library of online courses with world-class content.
